ABOUT ME

Full Stack Developer with 12+ years of experience delivering scalable web applications across SaaS, enterprise, and e-commerce platforms. In recent years, my primary focus has been building modern React.js applications while developing and integrating backend services using Node.js, Express.js . Experienced in collaborating with product owners and clients, understanding business requirements, prioritizing sprint tasks, reviewing code, resolving production issues, and delivering high-quality solutions in Agile environments. Strong background in REST APIs, reusable component development, and mentoring development teams.

API design & integration: REST APIs, JSON, Postman
E-Commerce: Opencart
Cloud & DevOps: AWS (EC2, S3, IAM, CloudWatch) , GitHub Actions (CI/CD)
Tools: Git, Jira , Docker
AI-assisted Development: Cursor, GitHub Copilot, Antigravity, Claude

WORK EXPERIENCE

Senior Software Developer / Frontend Developer

C2Perform India Pvt. Ltd (Remote — Roswell, GA, USA) · *Jun 2023 – May 2026*

- Developed and maintained React.js features for a cloud-based SaaS platform by integrating REST APIs and reusable UI components.
- Collaborated with US-based product owners and stakeholders to understand business requirements, provide technical estimates, prioritize development tasks, and deliver features within sprint timelines.
- Participated in sprint planning, prioritized Jira tickets, tracked development progress, and delivered features aligned with business priorities.
- Conducted code reviews, mentored a team of three developers, and ensured coding standards, maintainability, and timely delivery of project milestones.
- Worked with Node.js and Express.js services for backend enhancements and API integrations.
- Configured GitHub Actions pipelines to improve deployment efficiency.
- Handled escalated client issues and production tickets, investigated root causes, and delivered timely resolutions while coordinating with cross-functional teams.
- Worked with Redis for caching and improving application performance where required.

Senior Software Developer / Backend Developer

Comfisoft India Pvt. Ltd (Onsite/Remote Indore) · *Sep 2016 – March 2023*

- 5+ years of experience developing and maintaining scalable web applications using **React.js, Node.js, Laravel and MySQL**.
- Developed a comprehensive **Vehicle Rental Management System** for the Dutch market, supporting cars, vans, trucks, and other commercial vehicles.
- Built responsive and reusable user interfaces using **React.js**, improving user experience and application performance.
- Designed and developed **RESTful APIs** using **Node.js** and **Laravel**, enabling seamless communication between frontend and backend systems.
- Optimized **MySQL** queries, indexing, and database performance, reducing response times and improving application efficiency.
- Collaborated with UI/UX designers, QA engineers, and product managers in an Agile environment to deliver high-quality features on schedule.

Software Developer / Backend Developer

Mobiweb Technology Pvt. Ltd (Onsite Indore) · *JUL 2014 – FEB 2016*

- Worked on multiple client projects across different business domains, developing and maintaining web applications using **Laravel, CodeIgniter, OpenCart, Core PHP, and MySQL**.
- Collaborated with clients, business analysts, QA engineers, and cross-functional development teams to gather requirements, deliver new features, and resolve production issues within Agile sprints.
- Customized existing applications, implemented new modules, and optimized application performance based on client requirements, improving reliability and user experience.
- Troubleshooted complex technical issues, performed bug fixes, and provided ongoing maintenance and support for multiple live production applications.

Software Developer

KS Software Solution (Onsite Indore) · *JUL 2012 – APR 2016*

- Worked on multiple projects using Core PHP and CodeIgniter framework, developing dynamic web applications with structured MVC architecture and optimized database performance.

EDUCATION

B.E (Information Technology) - **Vindhya Institute of Technology and Science, Indore** (2007 - 2011)
